

To understand how to read and use number lines to 10,000,000

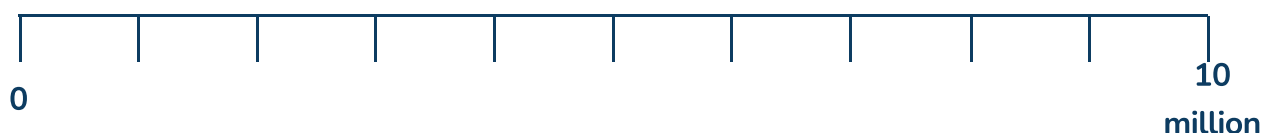

- 1 Label the division on the number line then draw arrows to show the given numbers.

a 1,000,000 b 9,500,000 c 3,500,000 d 6,500,000

- 2 Draw arrows to estimate the position of these numbers on the number line.

a 3,400,000 b 8,200,000 c 1,700,000
d 3,600,000 e 6,100,000

- 3 Draw a pair of arrows on the number line showing a difference of:

a 3,400,000 b 8,200,000 c 1,700,000

To understand how to read and use number lines to 10,000,000

Question Number	Question	Answer
1	Label the division on the number line then draw arrows to show the given numbers.	The number line should be labelled correctly. a) First unmarked division b) Between the 9th unmarked division and 10 million c) Between the 3rd and 4th unmarked divisions d) Between the 6th and 7th unmarked divisions
2	Draw arrows to estimate the position of these numbers on the number line.	Number should be approximately placed on the number line.
3	Draw a pair of arrows on the number line showing a difference of:	Answers will vary depending on the numbers selected.
